

SALES & PROFITABILITY ANALYSIS

PROJECT OVERVIEW

Use case

1. Visualize customer sales to take actions on high or low performing customers
2. Understand the business trends in terms of sales and profitability

Questions answered

1. Who are the top performing customers and who are not performing well for both current and previous years
2. How are the regions performing
3. What are the monthly sales trends and how is this compared to previous years
4. What are the year-on-year sales and profit trends

Techniques used

1. Graph visualizations
2. Top N selection and summarization of visuals based on the selection
3. Dynamic titles
4. Custom tool tips
5. Creative buttons
6. Year on Year measures
7. Custom date selections based on different time periods
8. Custom icons
9. Custom labels based on values
